

School IT Systems Support (SITSS)

Do you need help setting up your in-school Apple devices, managing them, making them secure or installing apps?

Introducing SITSS Apple iOS solutions and collections for the classroom...

****Special offer only available until 30th April 2015****

The **SITSS Apple Device Management System** is designed to help schools to maximise their Apple iOS devices (iPod Touch, iPhone or iPad) so that they can be used to their full potential in the classroom by both staff and students.

Already successfully installed in over 100 Hertfordshire schools, demand for the competitively priced **SITSS Apple Device Management System** continues to grow and, in order to help you choose the right package for your school, we have put together some great value, inclusive iPad collections tailored to support the use of iPads in the classroom – read on to find out more...

Please note that these special offers are only available until 30th April 2015 – so don't miss out!

If you require a more bespoke package to meet the needs of your school please contact us and we will be happy to provide a tailored quotation for you.

To get the best from the SITSS Apple Device Management System, we recommend a minimum of an 'N' based managed wireless solution. If you are not sure whether you have this – let us check for you!

The SITSS Apple Device Management System:

- is delivered by Apple Certified Professionals with a wealth of knowledge
- allows management of the server and devices onsite or remotely, updating apps, updating device settings, ensure users are safe by setting up restrictions for pupils and staff with the ability to save work to a central location
- makes devices classroom-ready for all teachers by installing apps covering different curriculum areas, in liaison with Herts for Learning's eDevelopments Adviser and Apple Distinguished Educator
- can synchronise the devices so each is identical in terms of settings and apps
- allows easy deployment of apps
- seamlessly adds extra devices (be it more iPads or personal devices)
- integrates the Apple solution with your current IT system, allowing collaboration of work
- provides the ability to print to school printers
- allows you to present your iPad onto the IWB (interactive white board)
- entails bespoke training – technical or educationally focused
- offers comprehensive tailored support to suit the needs of your school

****Leasing options also available for the Apple hardware.****
