QRS - RUNNING THE PROJECTED PUPIL/STUDENT NUMBERS REPORT ..... 1

## QRS - Running the Projected Pupil/Student Numbers Report

A consolidated **Projected Pupil/Student Numbers Report** has been provided to enable schools to plan more effectively for their forthcoming admission intakes. The number of projected pupil/students can be filtered on current **Admission Status**, **Gender** and **Boarder Status**.

**NOTE:** It is recommended that the **School Promotion** routine is run via **Routines | School | Promotion** before generating the **Projected Pupil/Student Numbers Report**. This ensures that accurate results are displayed in the report output. It is also advisable to ensure that any pupil/student **Leavers** have been recorded for this report to show the number of leavers correctly.

1. Select **Reports > Admissions > Projected Pupil/Student Numbers Report** to display the Projected Student Numbers dialog

2. Select the required **Admission Year** from the drop-down list
3. Select the appropriate **School Tier**, if applicable, from the drop-down list
4. Highlight the **Year Group** and **Admission Season** for inclusion in the report
5. Select the **appropriate filters** from the respective drop-down lists. The **Application Status** options are: Applied, Offered, Accepted, Admitted, Rejected, Reserved and Withdrawal
6. Click the **OK** button to display the **Run a Screen Based Report** dialog

- After specifying the Layout and Output Options, click the OK button to produce the Projected Pupil/Student Numbers Report
