

Style Challenge 2

We Come in Peace

As Kenton Clarkson comes round he gradually becomes aware of his surroundings. He is lying on the most comfortable, softest bed he has ever experienced although it is apparently made of a shiny silver metal. He quickly realises he is being stared at by three alien lifeforms. They are quick to reassure him that they mean him no harm. In fact they desperately need his help. Klimpton, their planet, will be destroyed in twenty-four hours unless they find an earthling to help.

TASK:

Imagine you are one of the aliens. Explain to Kenton why they desperately need his help to save their planet.

In your writing remember to:

- Use negative forms of verbs (not, never, nobody)
- Use pronouns (I, me, we, us, he, him, they, them, who)

Example:

Earthling, my friends and I mean you no harm. Nobody will hurt you.
