

## Style Challenge 3

### The Voyage

After his initial shock, Kenton Clarkson agrees to help the aliens in their mission. The return voyage to Klimpton begins immediately—warp speed ahead. Kenton is amazed by what he sees of space but this is nothing compared to his first glimpse of the planet Klimpton. Nothing could have prepared him for this sight.

#### TASK:

Kenton decides to write it all down in case he should forget the details. Write his description of the journey and the planet.

Include:

- Adverbs and adjectives that end in -er (e.g. neater, better, louder, etc.)

#### Example:

We immediately went onto warp speed to get us to Klimpton as quickly as possible. As I looked out of the window as outer space went rushing past, I had never seen anything better.
