

Style Challenge 5

Success!

Within hours the devastating situation on Klimpton is averted. The aliens carry out Kenton Clarkson's exact instructions; recycling paper, tins and plastics and saving energy wherever possible. With their vast intelligence they are amazed that a mere earthling could teach them anything so simple. Kenton is returned to Earth and all memory of the experience is removed from his brain.

TASK 1:

Write the formal report that is presented to the High Commander of Klimpton on completion of the mission.

- Remember to use an appropriate style.

Example:
