

Capital Funding and Works Application Process and Timeline

Full details of the application process along with guidance and templates can be found on [The Grid](#).

31st October
Deadline for applications.

November/ December
Applications are reviewed. Queries and clarifications addressed with schools if required.

31st January
Schools to receive 'in principle' decision about funding, or notification of an unsuccessful bid.

30th April
Funding announcement received from the DfE. Please note that until this announcement is received, no final decisions can be made about awarding funding to a project.

31st May
Schools to receive confirmation of approved bids, works and allocated Project Manager.

Schools can submit bids at any time and, whilst the current year's programme is likely to be committed, new bids will be reviewed if necessary, and a decision made about their relative priority in consultation with the Health and Safety team.

Please note, DCD does not have access to revenue funding to undertake reactive repair work.

The financial support we can provide to schools in this situation is governed by the conditions of the DfE Schools Condition Allocation grant which funds an annual programme of pre-planned capital works.
